

## Family Access

Family Access is a way for parents and guardians to take a deeper part in their students' education. It allows the user to review a student's grades, assignments, attendance & schedule at any time. It is real time when a teacher enters information; a parent immediately sees the changes.

Students have their own login and password to view their grades, attendance, and schedule.

Each school has staff to assist with Family Access registration. Registrars enroll new families with Family Access when they are filling in the Registration form.

**There will be an evening Family Access Registration available at The Government Service Building (GSB) on Tuesday August 16, 2011 from 4:00 p.m. to 7:00 p.m.**

Any parent wanting to sign up for Family Access must provide a photo ID, with a document of current residency for ex: cable, FPL, or a License with current address.

**Login:**
